

Dear Stakeholder:

The Department of Environmental Conservation (DEC) is exploring the development of a new 6 NYCRR Part 203, "Oil and Gas Sector," which would regulate oil and natural gas operations in order to reduce air emissions. EPA has published a control techniques guideline (CTG) which offers reasonably available control technology (RACT) to reduce air emissions from the oil and natural gas sector. DEC is considering the guidelines offered by EPA as well as accepting comment from New York Stakeholders in developing New York's regulation. A webinar will be held in order to present some CTG requirements and afford stakeholders with an opportunity to provide feedback to the Department regarding this rulemaking.

The webinar will be held on:
Thursday May 24, 2018 at 11:00 am

Information regarding this webinar is presented below. Pre-registration is not required. If you have any questions regarding this matter, please feel free to contact me via phone or e-mail.

Ona Papageorgiou, P.E.
Phone # (518) 402-8396

Meeting information

Topic: Air Quality Regulations for the Oil and Natural Gas Sector in NY
Date: [Thursday, May 24, 2018](#)
Time: [10:30 am, Eastern Daylight Time](#) (New York, GMT-04:00)
Meeting Number: [314 123 380](#)
Meeting Password: R2rMbdkm
